

## Gear Oil 140

<b>Description</b>	This gear oil is a mineral lubricating oil for mechanical transmissions. This lubricant is very stable against oxidation and protects from corrosion and foam-formation.	
<b>Application</b>	This gear oil is used in gearboxes, differentials, steering boxes and other transmissions for which the manufacturer not prescribes or even refuses a mineral lubricant with EP-additives.	
<b>Specifications</b>	Performance level API GL-1	
<b>Typicals</b>	Density at 15 °C, kg/l	0,903
	Viscosity 40 °C, mm <sup>2</sup> /s	460,00
	Viscosity 100 °C, mm <sup>2</sup> /s	31,50
	Viscosity Index	95
	Flash Point COC, °C	325
	Pour Point, °C	-12
